

take the quiz

In the boxes below are groups of word clusters printed horizontally in rows. Look at all the choices in the first row (A, B, C, D). Read the words and decide which of the four-word clusters is most like you. Give that a "4". Then, rank order the next three letter choices from 3-1 in descending preference with 1 being the word that is least like you. You will end up with a row of four-letter choices ranked from "4" (most like you) to "1" (least like you). Continue this process with the remaining four rows until you end up with five horizontal rows that each have a 4, 3, 2, and a 1.
